1. Applicant's response filed May 26, 2005, effectively considered a request for reconsideration of the finality of the rejection of the last Office action, is persuasive and, therefore, the finality of that action is withdrawn.
2. The declarations filed on May 26, 2005 under 37 CFR 1.131 is sufficient to overcome the Proksch et al reference.
3. Applicant's continued election, now with traverse, of the originally presented invention, in the reply filed on May 26, 2005 is acknowledged. The traversal is on the ground(s) that claims 53-54 are similar to those in the elected group and are considered to also be allowable. This is not found persuasive because of the reasons advanced in the last office action which showed that even though similar they are claiming a patentably distinct invention to that originally claimed. Since not searched their allowability has not yet been determined by the examiner and is any event irrelevant to the question of their restrictability.

The requirement is still deemed proper and is therefore made FINAL.

4. Claims 53-54 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on May 26, 2005.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kim US 6,856,536 discloses a manual feed back apparatus but does not specify that it is used in a probe microscope as claimed.

6. Xi et al US 6,862,924, not prior art, discloses the use of manual force feed back in atomic force microscopy but does not claim a probe microscope as in claims 1 or 25 using a manual input device, an alerting device and other components as set forth therein.

7. Claims 1-15, 25-26 and 55-56 are allowed.

8. This application is in condition for allowance except for the presence of claims 53-54 drawn to an invention non-elected with traverse in the reply filed on May 26, 2005. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.
